Re: Manager's Report

Community Swap Presentation – The second presentation was scheduled for Thursday, January 25th at 6:00 p.m. at the YMCA. We sent out notices to the various boards and commissions. We also put the information on the radio (Breakfast Club). Since the Missouri Extension was limited on the amount of advertising they could do for the first meeting, we assisted them with getting the information out to a wider audience for the 25th presentation. A good turnout is expected.

Sunrise Lake Pedestrian Bridge – The pedestrian bridge was set on January 25th. It will cross the spillway of the lake, connecting the two sides.

Economic Development Report by Rumery & Associates – Report is given at the Council meeting, usually on a monthly basis.

Business Park Steering Committee – The Committee met on January 16th. The stakeholders meeting will be on January 30th, and the public meeting will be in February.

eTruck Update – The building remodel is about 80% complete, and will be finished in about two weeks. Russ visited the site recently, and is very pleased with the progress. We are working with the company to get their electric demand information and are working toward the power line extension.

Great Northwest Day – Great Northwest Day at the Capitol is an annual event that starts tomorrow and ends on Wednesday. It is not a long meeting, but very beneficial, as other cities and legislators meet and discuss items of particular interest. Mike O'Donnell will continue to be armed with information regarding the need for intersection improvements at Griffin Rd. and Highway 36. We will also discuss economic development issues with legislators, as well.

Second Meeting in February – The third Monday of February is a holiday (Presidents Day). We may be able to cancel the Council meeting and resume in March. A decision can be made at the February 5th meeting.
