CITY MANAGER'S REPORT

1. TracFone Tax Settlement. The City was notified of a class-action tax settlement of \$20,301 from TracFone. The City had no expense in this litigation. MML was instrumental in getting this award to municipalities and requests that cities help fund the effort by contributing five (5) percent to the MML Advocacy Fund.
2. Start Smart Grant Program. The \$500,000 grant was approved. The grant will assist the Community Action Partnership of Greater St. Joseph with rehabilitation of the old hospital for use as a Head Start facility. The City participated in the process with the grant application work; building/site review; and, some cost estimating of infrastructure.
3. Water Plant Operator Hire. The City hired a replacement operator to fill our open position. He is an experienced operator with a Class-A license.
4. Sewer Projects. Work continues on the F-0001 sub-basin.
5. Business Park. Staff is working on the preliminary plan for the site development of the business park. KCADC was contacted for a recommendation of firms specializing in this type of development. Bartlett & West is one of the firms recommended. The City currently works with Bartlett & West on the Groat Street Project and on trail design. When the preliminary work is done, a decision can be made whether to retain them to perform the scope of services. Preliminary information should be ready for Council by the middle of March. A steering committee will be formed and the Council will be involved and informed throughout the process.
6. Groat Street Reconstruction. Bartlett and West has started design work for Groat Street. A public meeting for residents of Groat Street is tentatively scheduled for January 31, 2017. The Groat Street residents will be contacted about the meeting.
7. Animal Shelter. Plan review is continuing for the building in an effort to keep costs as low as possible. Costs per square foot for animal shelters are running around \$200 or \$250 per square foot (plus site grading and design), according to the Bacon Group which does animal shelters all over the United States. This cost is due to the materials of construction, drain systems and equipment needed for basic operation. The City must comply with State regulations for continued operation.
