Re: Service Line, Sewer Lateral Repair

Issue:
The Public Works/Utilities Committee took up the issue of Service Line and Sewer Lateral Repair at their Committee meeting following the November 2nd Council Meeting. The issues are varied and complicated and consequently the Committee recommended bringing this issue to the full Council for discussion. The staff will present five possible options for discussion: 1) remain as is, 2) opt out insurance, 3) opt in insurance, 4) private insurance, and 5) self-funded.

Recommendation:
For discussion only; no decision required at this time.
