City Manager Report

To: Mayor and City Council

From: Steve Rasmussen, City Manager

Date: September 7, 2021

Re: Manager's Report

GNWWC UPDATE. As the Council is well aware, we had a Special Council Meeting on Friday at 12:00 p.m. to approve the "Take or Pay" contract for the Great Northwest Wholesale Water Commission (GNWWC). This information, along with that from Maysville and the Commission, was forwarded to USDA at close of business on Friday. This information, along with our loan application, will be going before their Senior Loan Committee in Washington, D.C., on September 10th. We are awaiting a favorable response from them and will keep you posted.

ICMA EXCELLENCE AWARD. Also, as Council knows, the City has been selected to receive the International Community Sustainability Excellence Program award by the International City/County Management Association (ICMA) for our "Dilapidated to New" program. That award will be given at the Annual ICMA Convention in Portland at their international convention held on October 3-6th. As part of that awards presentation, the convention will show a video highlighting our program, which I am going to show you now.
